ACCIDENT ON THE RAIL.

Six Cars Thrown Over a Forty Foot Embankment—Twenty Persons Injured.

Special telegram to the Richmond Dispatch.

GREENSBORO, N. C., September 12.—The fast mail on the Richmond and Danville railroad met with a serious accident at 7:30 a. m at a place called Reedy Fork, two miles from Brown Summit station, and about eleven miles east of this point. The train was moving at about fifteen miles per hour, and the accident was caused by a broken rail, six cars being thrown down an embankment forty feet deep.

The express car was the first to go over, the baggage car next, then one passenger car, followed by one Pullman palace car and two sleepers. The baggage car rolled over fifty feet and one sleeper over 150 feet into a meadow below.

The baggage master had just stepped from his car into the express car, and was thus saved. No one was killed but about twenty were wounded. There were over 150 passengers on the train, including many ladies, some of whom were badly cut and bruised. One lady's head was driven through the walls of the car. Another in the same party was thrown through the window, her feet remaining on the ground and part of her body in the car.

It is thought by the attending physicians that none of the wounds will prove fatal The following is a list of the wounded—viz: Dr. Davega, son, and daughter, of Chester, S. C.; Miss Sechrist, Chester, S. C.; Mrs. J. E Appler, Columbia, S C; H E Markley, Greenville, S C; Mrs J Stringfellow, Montgomery, Ala; Mrs F S Stringfellow, Montgomery, Ala; Mr H Camson, Mobile; Mrs V White, Athens, Ga; Dr John T Moreland, LaGrange, Ga; A N Oldfield, Atlanta; Mr Eddings, Charlotte, N C: the mail agent, and several train hands, brakemen, etc. Mrs S E Appler, Mrs Renfroe and Miss Dora Renfroe, of Columbus, were considerably bruised.

One of the cars rested on its side just on the verge of a precipice, and the passengers had to be drawn out with ropes.

Dr. Knox, of the Woman's Hospital, was on board the train, and rendered every assistance in his power, exhibiting great skill and presence of mind in improvising bandages, etc, for the comfort of the wounded.

Medical aid was sent out from Greensboro and the injured properly cared for.

Later intelligence reports all doing well.

—Quite a crowd of young men assembled at the depot yesterday to sob farewell to a Tennessee beauty, and she carried one away with her as a trophy of the prowess in scalping hearts.

TILDEN.

A FORTHCOMING REFUTATION OF THE INCOME RETURNS SLANDER.

A Complete Statement that Must Set all Cavil at Rest.

NEW YORK, Sept. 13.—Tilden's explanataon of his income returns will be published in a day or two, and be so complete as not to leave a shaddow of excuse for harping. It will show in that year he lost several hundred thousand dollars by his brothers, who were in the chemical business at Lebanon. Dates, figures, and documents will be given proving the exact correctness of his sworn return.

THE STATEMENT PREPARED.

WASHINGTON, Sept. 13.—It is known here by an official correspondent of Gov. Tilden, that the latter has carefully prepared a statement for publication upon the subject of his income tax returns. His statement will be so clear and strong that it will forever dispose of the charge made against him. Some democratic advisers here think that this charge, being made only to divert attention from the prosecution of government maladministrators, should never have been noticed, and that the democrats should never have relaxed a strictly offensive campaign to be placed upon the defensive. Mr. Tilden's delay is explained upon this ground and his extreme conservatism in acting so hastily

IN IMPORTANT MATTERS.

He never move until he has massed all of his facts, so to make his action, when made, a finality. His statement will be forwarded to Congressman Hewitt, of New York, for publication within the next two or three days. It will be published in connection with a statement from the internal revenue bureau, furnished recently to Hewitt. Commissioner Raum, in speaking of this matter, says he does not want it to appear that the internal revenue department is being used to persecute the democratic candidate for president. He was led to make this remark by the comments of the press on his correspondence with District Attorney Bliss, relating to the contemplated suit against Governor Tilden for the recovery of his income tax. The commissioner says that he has

RECEIVED NUMEROUS LETTERS

from the leading republicans, asking for particulars of the charges against Governor Tilden, and had invariably refused to comply, for the reason given above. "But," said he, "when Mr. Hewitt, who is recognized as a great personal friend of Governor Tilden, wrote and asked me for a statement, I felt it right to comply, and will do so."

Failures in Journalism.

Charleston News and Courier.

A year ago some capitalists took hold of the Richmond Enquirer, then in a moribund condition, placed at its head some accomplished and experienced young journalists, who had won their reputation in New York journalism, and for a time everybody predicted that the enterprise would be a great success. The Enquirer, under its new management, was indeed a brilliant paper, but the crushing weekly outlay it required was more than its owners could stand, and on Saturday last it gracefully gave up the ghost. The Richmond Whig, in noticing the collapse of the Enquirer, sensibly remarks:

"The newspaper business of the country is greatly overdone, and especially is this the case in Virginia, and in the southern states generally. A daily morning paper, however judiciously managed, can only be run at a heavy expense, that must be met weekly in cash, so that, unless their columns are replenished daily and liberally with paying advertisements and their subscription lists are extensive, they can but prove costly luxuries—elephants upon the hands of their proprietors."

THE DESTROYING ANGEL.

AN INCREASE OF SIX IN THE YELLOW FEVER MORTALITY.

Thirty-one Deaths Reported—Over Half the Negro Population a Burden on the Hands of Charity.

Charleston, Augusta, Jacksonville, Memphis and Nashville Join the Good Work of Relieving the Destitute.

Specials to the Constitution.

SAVANNAH, 10:15 P. M., Sept. 15.

The silent march of death has left its tracks in the hearts of many again to-day.

The Death Roll

shows an increase of six from yellow fever the total being thirty-one, of whom twenty-seven were fever. The people are in the utmost anguish, and what with the number of bereaved friends of the hundreds who already rest beneath the sod in our various cemeteries, the ten times greater number lingering between life and death, and the universal fear of

a more harrassing scene could not well be imagined. Added to these bleeding hearts and bewildered minds, the loss of relatives and the wreck of business there is

The Most Appalling Destitution,

more than one half the negroes being ravenous with hunger, and having to rely upon the overtaxed efforts of the Benevolent association. Business being at a standstill and so many houses closed up, leaves a great multitude of worthy poor out of employment. There have been seventeen deaths among the negroes the last two days. M.

The Infected Vessel.

NEW YORK, September 15.

The vessel which brought yellow fever to New York, was the schooner W F Cushing, of Camden, New Jersey, from Savannah, which arrived here on the 4th inst. It is alleged that she was boarded at the quarantine by the health officer who took the captain's word that there was no sickness aboard. She immediately proceeded to her moorings, fortieth street, New York, when Hall, one of the crew, and John Evans, of Savannah, were shortly after taken down with the fever. The Cushing was lumber laden, and discharged part of her cargo at 40th street, and then went to Brooklyn. The authorities at Brooklyn hearing of her arrival at that city ordered the captain to proceed with his vessel to the lower bay; the Cushing was then taken to quarantine to have her hold disinfected.

S M GOLDING, acting clerk of Council and Secretary Board of Health.

Augusta Constitutionalist, 15th.

Dr A R Alley, well-known in Augusta, but now of Atlanta, sends the News an article on the treatment of yellow fever. The plan by which he proposes to abate this fearful disease, is to place artillery in such districts thus infected, and the discharge of blank cartridges at intervals from five to ten minutes, to be kept up for ten hours, until the air which surrounds the infected districts is rendered pure by the following method: It is a well known fact in medical science that all epidemics of fever is a blood poisoning, produced by the atmosphere being impregnant with (cryptogami) animalcules or vegetable germs. The combustion of powder in the discharge of artillery produces a concussion and displacement of the atmosphere, by which myriads of the floating germs are destroyed and fresh currents of air take the place of those displaced, and by continuation of this process, the atmosphere is rendered still purer by the elimination of gases which are set free by chemical decomposition, supplying the much needed oxygen to the tainted atmosphere, thereby rendering the air pure and mitigating the disease. We are aware that objections may be urged that this concession is likely to be injurious to those already already ill, but would not the good results derived from this plan to the thousands overcome counterbalance the injurious effects produced upon the few who are too ill to be removed from the infected districts?

Mr Estill, of the News, told a gentleman that within a radius of three hundred yards of his house there are eighty dwellings only two of which are occupied, and his is one of these, and he the only person on the premises. In Gaston street, between Habersham and Abercorn, there are nineteen dwellings; ten are absolutely closed and the occupants of the remaining nine are reduced in number, only those being at home who are obliged to remain.

Macon Telegraph, 15.

Additional refugees have arrived from Savannah since our last issue, and all bring the harrowing intelligence that the contagion is still spreading. The number of new cases is variously given, also the deaths for Wednesday night and Thursday morning, up to the departure of the Central train. As our informants disagree in their figures, we will not state them, but refer our readers to the telegraphic report, which is more apt to be correct.

Among the deaths from yellow fever, we notice the names of Frank G Ash and William C Ferrell, both of them promising young men. The former had just completed his eighteenth year, and the latter was but a few weeks from college. He was a son of the late John C Ferrell, a gentleman well known in financial circles throughout the south.

The mortuary reports for Wednesday show that there were twenty-five interments, of which twenty-two were yellow fever cases, being an decrease of eight in the total number of interments, and an increase of one in the deaths from yellow fever, as compared with the previous day's report,

"SKIPPING OUT."

A letter to the CONSTITUTION says that it is really amusing to see the people hustling off to White Bluff, Isle of Hope, Tybee, Whiteville and even Thunderbolt before sundown. They don't "skip in" again until after sunrise.

A LETTER FROM MR. WHEATON.

The following is an extract from a letter received by S M Inman, chairman, from Mr J F Wheaton, chairman benevolent association of Savannah.

SAVANNAH, Sept. 14, 1:30 p. m.

"So far to-day there has been no increase of the fever over yesterday, but there is an increase in the report of cases of destitution. We shall therfeore thank you to forward all the supplies you can as they are much needed.

The committees of colored men are working effectively in harmony with us in relieving the suffering among their people, which is great.

We shall keep you advised of our situation and wants and again thanking you for your aid, I am, yours truly,

WADE HAMPTON.

A Talk With Him on the Prospects in South Carolina.

From H. V. Redfield's Letter to the Cincinnati Commercial.

As we were coming along on the cars this morning—a freight train at twelve miles an hour—I asked General Hampton if he thought he would be elected.

"I think the chances are in my favor," he replied, "but of course we have no certainty of it."

"Upon what do you base your hopes,"

"Just this: the whites are aroused as they never have been. The blacks are feeling this excessive taxation, and the enormous cost of carpet-bagger rule is coming home to them. I am positive that more colored men will vote with us than ever before."

"Who do you think the republicans will nominate against you?"

"They are split up and divided, wherein we have a hope of success. If they do not come together we are sure to win. If they are not able to harmonize on Chamberlain, they may take Elliott."

"Whom do you think is the strongest man they can nominate?"

"Chamberlain, by all means. But the opposition to him among the low country blacks, on account of the Whipper matter, is such that they may defeat him and nominate Elliott or some other colored man."

"That would lead to a color-line fight in all that term implies," "I said."

"Yes; that would not be good for the state. However, nominate whom they may, and do what they can, I think our chances of success are very fine; or rather, I think the chances are in our favor."

"That is true; but so far as South Carolina is concerned, it is not Tilden we are working for so much as relief from the rule of the robbers here at home. My God, sir, we can not stand it! Our substance is consumed, and the very name of our state is a by-word and a reproach. We are in the gulf of despair. If the northern people—yes, even the northern republicans—knew our condition, knew it just as it is, knew what we had suffered, and how we have been robbed, their sympathies would be extended to us in this struggle. We do not want to deprive the colored people of any of their rights; we agree to and support the constitutional amendments and turn our back upon the past, but what we do want is relief from the rule of the robbers. To do what I can for our poor state, I accepted the nomination, though I did not want it. I do not want to take part in politics. I asked for no office; but when my people call me, I must do what I can for their relief, be it much or little."

I told Gen. Hampton that I thought the northern people did sympathize with the whites of South Carolina, and would be really glad to see enough negroes join with them to elect a decent and honest legislature—one composed of men who could at least sign their own names—but that they did not like the idea of every southern state going for Tilden. At least some of them did not. If there could be some plan devised to take the cotton states government out of the hands of the negroes, and at the same time prevent the south from being solidly democratic at national elections, I thought they would agree to it.

General Hampton said that he fully appreciated the difficulties of the situation. He thought it would not be many years until there would be a demand in the north that the negroes be disfranchised, or at least the more ignorant of them. "Mark my words," said he, "this demand will come from the north before it does from the south. They will see what a large representation the enfranchisement of the blacks gives us in the government, and there will be a demand for a change of policy. But in the south we are not now adverse to negro suffrage, whatever may have been our opinions at the outset. It gives us a larger voice in the government than our section has ever before had. Individually, I advocated negro suffrage immediately after the war, and was the first man on the soil of South Carolina to make a speech in favor of it. What we want now is to get enough blacks to act with us to secure the success of our ticket, elect a good legislature, and drive the plunderers that have so long despoiled us from power. That is all. We are working for South Carolina now. I might say for existence."

TERRY'S RETREAT.

A DISGRACEFUL ENDING OF OUR INDIAN WAR.

Chamberlain Renominated—The Situation in Servia—Disastrous Fires—An Expressman Robbed, etc.

Special to the Constitution.

CHICAGO, September 15.—The Times' special correspondent with Terry, telegraphs from Fort Buford, mouth of Yellowstone, via Bismarck, 14th:

The Final Breaking Up

of Gen. Terry's command occurred yesterday. All the troops are now en route home, with the exception of two regiments of infantry, which will winter at the mouth of Tongue river. The mounted troops, numbering 250 infantry and 120 horses, including 70 infantry and the second cavalry, under Gen. Gibbon, left for Fort Ellis with a wagon train and supplies for eighty days. They will follow the old Stanley trail. Their route is

Teeming with Hostiles,

and is 420 miles long. They may encounter a large war party in the Big Horn country. They have been in the field since March, and are poorly clad for cold weather and fierce storms which sweep over the prairies at this season. The 2d infantry have been left at the mouth of Glendine creek, commenced the construction of a stockade. They will remain till November 1st or later. The seventh cavalry have left for Fort Buford and will move along the north bank of Yellow Stone. After arriving here they will go to Fort Lincoln to winter. The 16th infantry will remain here. Gen. Terry and staff arrived here this morning. They will remain a few days, then go to St. Paul via Bismarck by the 15th. All troops will

Have Been Withdrawn

from the northern country except the 22d infantry and 5th cavalry, containing 400 men.

A dispatch just received from Gen. Sheridan countermands the order to winter a regiment of cavalry on the Yellowstone, which renders a winter campaign impossible, and indefinitely postpones the subjection of the Sioux.

Counting the Indians.

BISMARCK, September 15.—The count of the Indians at Standing Rock shows that 7,000 rations have been issued for 4000.

Gone to the Hostiles.

ST. LOUIS, September 15.—The advices from the Redcloud agency say there is no doubt but that several thousand of the young men have gone to the hostiles. As the recent count at this agency shows but 4,001 men, women and children present, where there should be 13,000, and it is quite probable that the investigation at Spotted Tail agency will show a corresponding deficit.

The Porte's Reply

LONDON, September 15.—A Reuter dispatch from Constantinople says that it is stated there that although the reply of the porte to the representatives of the powers will formulate the conditions of peace, it will leave the conduct of the negotiations in the hands of the powers.

A Governor Dismissed.

LONDON, September 15.—The governor general of Adrianople has been dismissed for maintaing general armament of the Mahometans, the necessity for such precaution having passed.

A British Protest.

The British officers at Turkish head quarters in Servia, report great devastation by the Turks, but no outrages upon women or mutilation of the sick and wounded. On receiving this intelligence the British minister at Constantinople remonstrated against devastation whereupon the Turkish government issued stringent orders to stop it.

The Turkish Bondholders.

LONDON, Sept. 15.—The general commission of the Turkish bondholders have issued a circular embracing a scheme for permitting the Turkish government to issue paper money to the amount of $40,000,000 to be legal tender and bearing no interest, the whole amount to be redeemed in ten years by half yearly drawings of two millions each, and that the sum is to be provided for by a deduction of 15 per cent from the interest paid to existing bondholders. One of the provisions proposed in the scheme is that the porte shall adopt what is called the "Hammond scheme."

A Reuter dispatch from Belgrade says the report is current there that the Turks have captured two of the seven redoubts at Little Zevornick.

The government will shortly issue notes of denominations ranging from one to one hundred francs, having a forced currency.

Refuses the Armistice.

LONDON, September 16.—A dispatch from Constantinople to Reuter's telegraph company says that the porte has informed the ambassadors of the powers in reply to their representatives made on Saturday last, that it is impossible to grant an armistice, but the porte

Is Prepared to Accept Peace,

based upon the following points: First, the re-occupancy of the forts which were held by Turkey previous to 1857; Second, the destruction of the fortresses constructed by the Servians since 1857; Third, the investure of Prince Milan at Constantinople; Fourth, the reduction of effective Servian army to ten thousand men and three batteries; Fifth, the construction of a railway across Servia; Sixth, the point follows which is indecipherable in the telegram. The porte insists chiefly upon the necessity of occupying principal Servian fortresses, so as to prevent fresh aggressions, and leaves negotiations on a treaty on the above basis entirely in the hands of the powers.

Thunder from the Thunderer.

LONDON, Sept. 15.—The Times in a leader finds fault with Sir H. G. Elliott for his tardiness in transmitting news regarding the eastern question. It asks where Mr. Baring's report is, and why it has not appeared, when Mr. Schuyler's report has been so long before the public. The parliament must meet this autumn if the government does not make facts public promptly. The article continues, "we are now passing through a time when momentous issues are hinging on the balance. Middle of May the question of paramount importance was to prevent Servia and Montenegro from engaging in war; in the middle of September the danger to be avoided is the appearance of Russia as a belligerent. Every lover of peace must struggle against it. If Russia enters the list our diplomacy will doubtless become more energetic, but nothing more. We are however, dwelling on no unreal danger when we declare the present moment is big with issue, whether the war cease or assume a new and more tremendous character.

Tolerant Prussia Rebuking Intolerant Spain.

LONDON, Sept. 15—A Reuter dispatch from Berlin says intolerant measures of the Spanish government against Protestants are stated to have given rise to frequent exchange of notes between the British and German governments. It is understood they will address remonstrances to Spain on the subject and call upon her to act in conformity with the engagements.

Hernbein and Phillip Kepp, were descending on an an elevator at the boot and shoe house of Joseph Baum on Washnigton avenue this evening, the machinery gave way. The elevator and men were precipitated from the third story to the ground floor. Kepp was instantly killed and the two other men were dangerously hurt.

'OWCOMEYOUSO, ORVIL?

THE PRESIDENT'S POST-TRADING BROTHER ON A TERRIBLE BENDER.

An Adjunct of the Administration Sleeps Off a Drunk in a St. Louis Station House.

St. Louis Times.

The most distinguished person arrested by the St. Louis police yesterday was Orvil L. Grant, brother of President Grant. It was about five o'clock in the afternoon when special officer Von Mugge and a brother patrolman wheeled the president's brother up to the Four courts in a hand cart and dumped him out at the main entrance. They had found him, they said, lying in a vacant lot near the union depot, and but for them he would surely have lost his fine gold watch and chain and perhaps his gold-headed cane and silk stove pipe. When dumped out, Orvil was still in a semi-unconscious condition and unable to stand on his legs. He was carried into Captain Burgess' office where he was relieved of his valuables, including a large number of documents from Washington and the Indian agencies, and was then carried down to the calaboose and thrown into cell No. 10, along with some half dozen other "drunks."

So far he had escaped recognition, but an inspection of his letters and papers soon established his identity. All of them were addressed to O L Grant, Elizabethtown, New Jersey, and with a few exceptions they all related to post traderships, Indian contracts, etc. Some of the letters were from a partner in Washington and others from Indian agents out west. His watch was an elegant gold one, but no name could be found on it. His pocket-book contained only four dollars and a half in money and an old railroad pass, dated in September, 1875, and good for one trip from St Louis to Washington over the Ohio and Mississippi and Baltimore and Ohio railroads.

About 8 o'clock in the evening Louis Bohle, of the Globe-Democrat, drove up to the four courts in a buggy, and had an interview with Capt. Burgess. He wanted to know what the charge was against President Grant's brother, and was told that there was no charge at all—that he had been arrested for druhkness, but was to be released again as soon as sober. The captain didn't know, but to accomodate Mr. Bohle he sent an officer down to the calaboose to find out. A moment afterwards the officer returned and reported that Orvil was sober enough to walk out.

"Then bring him up," said the captain, and down went the officer again. He was gone but a minute or two, and when he re-appeared President Grant's brother was at his side. Orvil was a sorry sight to look upon. His fine broadcloth suit was ruined forever, and his fine silk hat was full of dents and covered with mud. His face was red and his eyes swollen, while his big brown moustache hung sadly down at the corners. He staggered along the hall way, gave a nod of recognition to Mr. Bohle as he passed into the office to register his name in the property book. Without saying a word he scrawled out the signature "O. L. Grant," received back his gold watch and other valuables, and then left in company with Mr. Bohle, who drove him off to the Lindell and put him to bed.

Oat Meal in the Household.

Baldwin's Monthly for September: In Great Britain children of all ranks are raised on an oatmeat diet alone, because it caused them to grow strong and healthful, and no better food can possibly be found them. It is also quite as desirable for the student as for the laborer, and for the delicate lady and for her hard working sister; indeed, all classes would be greatly benefited by its use, and dyspepsia, with all its manifold annoyances, can be kept at a distance. Oatmeal is more substantial food, it is said, than veal, pork or lamb, and quite equal to beef and mutton, giving as much or more mental vigor, while its great desireratum consists in one's not becoming weary of it, for it is as welcome for breakfast or tea as is wheat of Graham bread. It can be eaten with syrup and butter as hasty-pudding or with cream and sugar, like rice. It is especially good for young mothers, upon whose nervous forces too great a demand has been made, and they lose the equilibrium of the system and become depressed and dispirited. Oatmeal requires to be cooked slowly, and the water should be boiling hot when it is stirred in.

A Finger in the Pie.

September 15th, 1876.

Editors Constitution:—We see in your list of counties composing the ninth congressional convention yesterday you left out Gwinnett. We want it understood that we had a "finger in that pie." Our delegates were J. T. Elvaney, W. W. Wilson and C. A. Howell.

Respectfully, "GWINNETT."

—It is no unusual thing for the feminine visitor at the centennial to call an attendant mysteriously on one side and inquire in subdued accent for "Miss Ordway's night-dress." This far-famed garment, it has been stated in countless newspapers, was sold by the Egyptian department to Miss Ordway of Reading, who is about to become a bride. In accordance with the rules of the exposition, it could not be removed from the building until November 1, and was therefore ticketed. "Purchased by Miss Ordway of Reading," and left on view. The centennial visitor who has heard, moreover, fabulous stories about the thinness of the night-dress and its surpassing beauty, always hastens to the Egyptian department to see it. Need we say that it is too thin to be seen? It is not there; it never was there; it is a myth—the invention of a fertile but unveracious newspaper correspondent.—Chicago Tribune.

THERE is scarcely a newspaper west of the Colorado that is not advocating a division of Texas. The growth of the division sentiment has been very rapid.

THE lists of "prominent arrivals" in New York would have an unusual, if not a lonely, look, if Gen. Young's numerous initials did not catch the eye. New York seems to be one of his favorite places of resort.

REPRESENTATIVE CLYMER says if the democrats carry Indiana, it is quite probable the electoral vote of Pennsylvania can be carried for Tilden. He says also, that Randall has given up the race for the speakership, which will leave Sayler without formidable opposition.

THE New York Herald says the nomination of Lucius Robinson by the democratic convention of New York, is the strongest and best that could have been made under the circumstances, and assures a victory for Tilden. The World is perfectly satisfied with the nomination. The Sun considers Robinson a fit selection for the office.

ALTHOUGH some of the departments complain that they are not able to transact the official business owing to the reduction of their force made by congress, they have nevertheless decided to grant the Ohio and Indiana clerks forty days' leave of absence in order that they may vote at the October and November elections in those states.

THE Spanish government, says the New York Tribune, appears to be acting in good faith, having from the outset aided the state department in tracking Tweed. This comity results in a great measure from the prompt surrender several years ago of Col. Arguelles to the Cuban authorities. The Tribune thinks that it would be better to have an extradition treaty take the place of this exchange of criminals, since the practice is liable to abuse.

IN reference to Dr. Felton's proposition to let republicans assist in naming a democratic candidate for congress, the Cartersville Express says:

> We understand that Major Zachariah B. Hargrove, the republican postmaster at Rome, and the leader of his party in this district, claims to be the author of the so-called proposition, and he suggested it to Dr Felton before he (Dr F.) accepted it. That Hargrove claims to have been the author of the proposition we are prepared to prove by Mr. John R. Towers, jr., of Rome. If this be true, then the question becomes one of veracity between Dr. Felton and Maj. Hargrove. Let them settle it.

GEO. WILLIAM CURTIS, in the latest issue of Harper's Weekly, pronounces Butler's nomination the sign of a dangerous reaction in the republican party, and declares that his defeat becomes a republican duty. If necessary, Curtis says the district should be given to the democrats; "for if General Butler represents the politics that is coming in with Hayes, even the vote of Massachusetts would be in doubt." We are willing to rest the democratic case on the arraignment by Mr. Curtis of a republican nominee who received 84 out of 106 votes in the republican convention of his district.

NOTICE TO CORRESPONDENTS.

The CONSTITUTION wants all important news for publication. The associated press, with its scores of agents all over the world, furnishes all that we need from without the state; but within our borders we depend to a great extent on special correspondents, of whom we have no small number. News of important events occurring in their respective localities is always acceptable; but two rules should be observed in sending it:

1. Do not send by telegraph what would reach us before eight o'clock at night by mail. We have discovered to our cost that the lightning tariff is much higher than postal rates.

2. In sending a telegram inform the operator who receives it that it is a "special" to the CONSTITUTION. In that way it will come through at less than full rates, under our contract for such matter; otherwise, full rates will be charged.

OUR AGRICULTURAL AFFAIRS.

Master T. J. Smith of the Georgia state grange, in a letter over two of the Macon Telegraph's columns long, ably presents the agricultural situation. We have not room for the letter, admirable as it is. Let us however pick out some of its facts and points.

"With what millions of teeming wealth," he exclaims almost at the outset, "would the land abound it all the farm labor in Georgia was wisely directed—if every lick struck was made fully effective?" But farming is not profitable. Why? Our farmers do not understand their business. Those who do understand the business, and practice what they know, are making more money than can be made in any other business.

Our farmers lack knowledge—that knowledge which can alone supply what they have lost in the labor of their negroes. Brains, skill and scientific knowledge must supply the place of lost muscle to a great extent; and it is the duty of the state to help the farmers to the knowledge they need. The tillers of the soil do not ask, as other classes have, subsidies, endorsements, loans of credit or relief from taxation; but they do ask the state to furnish them with reliable and valuable facts and statistical information, and this has been granted, at least in part, through the establishment and support of the agricultural department and geological bureau.

Col. Smith then states at considerable length the benefits that the farmers have derived from the two years' work of the agricultural department. It has put an end to frauds within the state in the quality and price of fertilizers. No really poor fertilizer is sold in Georgia. The manufacturers who desire to sell to our planters have been compelled to raise the commercial value and lower the price of their goods. In the past year there has been a gain in these two respects of $9.88 a ton or twenty-three and one half per cent. During the past season 59,956 tons of fertilizers were used, and the farmers of the state therefore saved over a half million dollars chiefly through the information furnished by the department.

It is known that the advice of the department, widely disseminated and officially proclaimed, in the matter of composting manures, has resulted in a grand saving. Nearly 46 per cent. of the fertilizers used in the state the past season were composted. A million of dollars was certainly saved in this way, Mr. Smith says a million and a half. And so with fall-sown oats and purchases on credit, and the breeding of horses and mules, and sheep husbandry. All these subjects have been investigated and the facts officially published for the benefit of the farmers. No other instrumentality could have brought them home to the people as the department has done. Mr. Smith therefore hopes that the annual appropriation will be increased to $15,000, so that the valuable reports of the department can be placed in the hands of every farmer in Georgia.

After a few commendatory words of the work of the state geologist, Col. Smith says in conclusion: "Since losing our labor, we must, in a great measure, supply its place with skill and knowledge; unless we do we shall never again become wealthy and prosperous; and the state government, which has liberally aided all other occupations, must not be slack to continue a like aid to this, the most important of all its industries. The farmers do not ask any other aid; they must have this, and it must not be grudgingly dealt out to them."

TRADE CENTERS.

It is getting to be unfashionable to go to New York to purchase goods. It is a sign of "greenness." For trade centers are springing up in every part of the country, and thousands of merchants who were wont to visit New York, are now relieved of the tiresome and unprofitable trips. The new jobbing points are called in New York sectional centers; and for a time the metropolis undertook to stop the movement by railroad discriminations, hotel reductions, and the like. Of late it is taking a more sensible view of the subject. It sees that it will continue to sell as many goods, but to fewer hands—that is all the difference.

The New York Bulletin, in discussing this subject, thinks that New York should not be seriously concerned, but rather smile at this promising growth, because the metropolis understands that "it must continue to be the entrepot and first-hand distributing point for foreign products, the chief center for manufacturers supplying jobbers, the center, also, for jobbing a large amount of goods to the populations of the middle and southern states, the chief port of export for western products, and the financial center at which operations will be finally settled and at which the balances of the country will rest and find employment."

POOR Schurz! Grant, Chandler & Co. have declared that henceforth the canvass of Hayes must be conducted to suit them, or the whole power of the administration will be used to defeat him. It is now an ascertained fact that Chandler, by direction of Grant, has cancelled all engagements made with Schurz, and notified Morton that it is the belief of the president that his speeches have done more harm than good. No wonder the administration crowd are riled at Carl Schurz's campaign sayings. Just listen to how the latter went for Grant in his speech at Chicago the other day:

> Grant's fault was that he did not understand what he had to do as president of the United States. [Applause] He thought he had to provide for his family, relatives and friends and those friends were, as they knew, not always of the best. [Laughter.]

ZACK CHANDLER, Blaine, Morton and now Beast Butler—all bulldozers are the real, the fit leaders of the—reform-from-within party. The chances are however that Butler will not get to congress. He is running in the district that easily elected Tarbox, democrat, over Dr. J. C. Ayer in 1874. Hoar and his friends refuse to support Butler, nor will the better element of the republican party vote for him. His defeat is numerously predicted.

REPUBLICAN SHAMELESSNESS.

The desperate nature of the republican canvass is shown in the acts of its leaders. Less than a month ago congress passed an act to prevent the assessment and collection of money from government employees for electioneering purposes; and yet a member of the cabinet, six republican United States senators, four republican members of the house and several prominent republican residents of Washington are at this moment engaged in a deliberate evasion of the letter and violation of the spirit of that law, by levying assessments upon government employees, and showing them how they can pay the assessment without incurring the penalty of the law.

The St. Louis Republican publishes in full documents to substantiate this charge of a grave and deliberate violation of the spirit, if not the letter, of the law. Those documents consist of circulars issued by the republican national executive committee and addressed to the 85,000 federal officials and employees in the land. If we take $30 as the average amount of the assessments, we have $2,555,000 raised from them alone.

One of the circulars recites the act in relation to contributions for political purposes, and adds:

> 1. It is seen from the above that all officers appointed by the president, by the advice and consent of the senate, are exempted from the provisions of the law.
>
> 2. That in its application to other officers or employes of the executive branches of the government not so appointed, the law simply prohibits one officer or employee from paying to or receiving from another officer or employee of said branch of the government any money, property, or other things of value for political purposes.
>
> The committee will be glad to receive from you thirty dollars, or more, according as your inclination and ability may lead you to contribute.
>
> ☞It is particularly desired that in replying to this letter, the DATE and NAME OF THE WRITER, together with his ADDRESS and OFFICIAL POSITION, should be written CLEARLY AND LEGIBLY in order that credit may be properly given.

Could anything be more shameful? Could anything be more directly in violation of the spirit of the act that congress has just enacted? These men, most of whom are high in office, are setting decency and the law of the land at defiance. And these very men are the ones who would surround Hayes if he were elected, and shape his entire administration. Talk about civil service reform under such men! It is nonsense. No reform is possible unless they are driven from the places they are shamelessly disgracing in the desperation of their critical position.

COLORADO POLITICS.

The first state election of this new member of the grand sisterhood occurs just a week after our own October election, and her political outlook is beginning to be studied closely, especially by those who believe the United States senate chamber will soon witness a peaceful and much-needed revolution. For Colorado not only elects a full set of state officers and three electors, but she chooses at one stroke two United States senators. On those two may depend the complexion of the senate. The result will be watched, as the St. Louis Times says, "with truly national solicitude."

The democracy labor under the disadvantage of having but six out of forty odd papers under their control. The balance are more or less fed from the government crib. But notwithstanding all this, it is believed the chances of the well-balanced contest favor the democracy. The state ticket of the radicals is certainly lame. Mr. Routt, their candidate for governor, has lived but a few months in the state that he carpet-bagged to in order to become territorial governor with the prospect of promotion. He is not a great man—quite the reverse. His colleague on the ticket married into an off-colored Mexican family, and no one wants to see such a couple in the second office of the state. The democratic candidate for governor, Mr. Bela M. Hughes, has resided in Colorado a great many years. He is a first settler and very popular, and so is the democratic candidate for lieutenant governor. The latter's strength is chiefly among the Spanish population. The present democratic delegate, Mr. Patterson, is a candidate for congress, and is opposed by Judge Belford, who is the best stump orator the republicans have in the state.

The contest is a close one. Neither side is sanguine, and both are putting forth their best efforts. Two seats in the United States senate are prizes well worth contending for; and amid the noise and interest over the elections of Ohio and Indiana that occur on the same eventful tenth day of October, we shall look with something more than curiosity for the returns from distant Colorado.

SECRETARY MORRILL's forced opinion in favor of Wall street and other money sharks is having its effect. Under his decision, that the new 4½ per cent. bonds would be received as collateral security for the national bank circulation, all the national banks are withdrawing their 6 per cents, and replacing them with 4½ per cents. The premium on 6 per cents being about seventeen cents on the dollar, and on 4½ per cents, less than five cents, it is apparent why banks should rush pellmell to withdraw more valuable bonds. The clerical force in the comptroller's office of the treasury is taxed to its utmost in effecting the rapidly increasing applications for change of bonds.

THE Gwinnett Herald wants to know what has become of its district electors. That is just what all the districts want to know, except the first, where Capt. P. M. Rogers is doing splendid service He is, says the Brunswick Appeal, the right man in the right place. When three of the congressional districts are in doubt, why are not the other electors at work?

AT the late annual meeting of the stockholders of the Nashville and Chattanooga railroad, Colonel Cole and the other old officers were re-elected. The receipts during the past twelve months were $1,751,599, and the net profits, $755,330. A dividend of three per cent was paid, and 12½ miles of steel rail were laid during the year.

NO INDEPENDENTS WANTED.

We place at the head of our columns this morning the democratic nominations for national and state officers. The time has come for action. The dangers that threaten us must be confronted and overcome. The greatest danger in Georgia is the spirit of independent candidacy. It is the bane of our politics. But our duty is plain. Independent candidacy in its last analysis is but another name for extreme selfishness, mixed perhaps with ambition and egotism. There is not a particle of patriotism in a man who will in this crisis promote disorganization in the democratic party, or seek in any way to lessen the moral effect that would flow from a large majority in the October election—not a particle. A lessened majority in Georgia would be regarded and paraded all over the north as a republican gain, as a sure sign that several southern states will cast their electoral votes for Hayes and Wheeler. Will you thus encourage and sustain the party that hopes to fasten itself on the country for four years more by capturing the floating vote? If not, sustain the regular nominees, frown down all disorganizers, and help on the good cause in every way you can. We shall keep the names of the democratic nominees in plain sight until the day of election, when they will be transferred, if we do our duty, to the big side of the tally sheets at the polls.

ONLY two northern cities—Philadelphia and Baltimore—are moving to aid the sufferers by the yellow fever in Savannah. Over $4,000 have been subscribed in Philadelphia, and her prominent citizens are still at work. The people of Georgia will soon know who their friends in need are.

A large number of Mudfog associations for the promotion of everything are now in session.

TINSMITHS are making canteens for republican processions; while the democrats carry the bottle honestly in the left hand.

WITH all his greatness and generosity, Daniel Webster would never pay 40 cents a glass for twenty-five cent brandy, unless the barkeeper kept a slate.

SHOO fly, don't bodder me, for I belong to company G," has a new significance in Massachusets, from the fact that in the militia disbandments in that state every company G has been spared.

ZEB VANCE and Judge Settle, the rival candidates for governor of North Carolina, are making a joint canvass of the state, traveling, sleeping, eating, and drinking in each other's company.

TURKEY uses so much sultan this year we should think it would be cheader for her to use the canned article instead of ordering a fresh one twice a week.—Hawkeye.

THE rise and fall of Turkish sultans, says the Boston Post, leaves the place of the sublime porte about as uncertain as a position in Grant's cabinet.

UNLESS the army is a little better managed in the war upon the people than it was in the Sitting Bull campaign, some of the southern women and children may escape.—St. Louis Times.

A HAPPY family: Hayes, in his parlor, receiving the widow Butler and her escort, the reform editor of "A Journal of Civilization"—while Carl Schurz plays the Rogue's March on that untaxed piano.

JOHN L. ROUTT, the republican candidate for governor of Colorado, was a carpenter by trade, before he took up the trade of a politician, and the way things look now, there will be a fine opening for him in November to return to his old business.

IN consequence of the scarcity of money in North Carolina cows are now used as a medium of exchange, and merchants say such currency is next thing to bully, though we never heard of such an idea before. Perhaps such a medium of exchange suits North Carolina as well as any udder kine. Norristown Herald.

IN the St. Paul (Minn.) district, now represented by Bill King, the republicans have nominated Dr. Stewart, of St Paul, a gentleman of remarkable popularity throughout the district, and the democrats have nominated McNair, of Minneapolis, who is a successful lawyer and business man.

SIXTY-FOUR out of the sixty-nine German papers of Wisconsin are supporting Tilden and Hendricks. Sixty-four sixty-ninths is a somewhat larger proportion than exists in other states, but a much smaller proportion of the German vote than this if cast for Uncle Samuel, will make him the centennial president.

No well-informed politician in this state for a moment questions the triumphant election of the Hon. J. D. Williams for governor in October, and the Tilden electors in November. The die is cast, and the contest now is only as to what the majority shall be, fifteen or twenty-five thousand.—Indianapolis Sentinel (dem.)

THE hands employed at work on the Raleigh and Augusta Air-Line railroad, have found in a branch close to where they are grading, between Hamlet and Cameron, an old cannon. It was said to have been embedded in the ground directly on the line of Cornwallis' march, between Fayetteville and Salisbury. It is badly rust-eaten, and has every sign of antiquity. They speak of sending it to the centennial.—Raleigh News.

THE King of Bavaria was 31 years old on August 25. He lives alone in the mountains, and hardly ever travels, and he never appears in public. On one occasion they illuminated Bayreuth, and after great entreaties his majesty was induced to drive through the town, but his carriage was closed, and the good-humored people said they were much obliged to the carriage for showing itself, for nobody saw the king.

MENTION has already been made of Gen. Pleasanton's wonderful experiments on the influence of the blue ray in developing plants and animals and curing disease, and it is now stated that a Dr. Ponza, the physician in charge of the insane asylum at Alexandria, Italy, employs color as a remedial agent. He puts melancholy lunatics into red rooms, and violent maniacs into blue rooms. The reports are reported to be almost incredible.

THERE are more actors and theatrical people generally out of employment now than there has been at any time within the last fifty years at this season of the year. The cause assigned is that managers expect a hard season, and will not go on the road. Presidential election seasons are always bad, on account of the political meetings, processions, etc, and this, combined with the present dull times, has such an effect upon managers that for every ten companies that were upon the road in former years only two or three will be out this season, and they will start very late, some of them waiting until after the elections.

A Remedy that Defies Competition.

Hostetter's Stomach Bitters defy competition. Of the host of rival tonics that have cropped up during its long career, not one has gained and retained such a large share of public favor, though many have enjoyed an ephemeral popularity. The reason is this, that whereas many of these medicines were advertised to perform cures of the most startling nature, they have when tested, almost invariably turned out to be of little or no value, while the great invigorant, whose reputation they were intended to rival, has never disappointed those who have placed their confidence in it. It has vindicated in the amplest manner its claims to be considered a positive specific remedy for liver complaint, dyspepsia, malarious fevers, debility, constipation, and numerous other maladies arising from general weakness and disorders of the stomach, liver and bowels. sep16—d&w1w

AN ACROSTIC.

Serene of mind, of judgment sound,
Another such is rarely found;
Mighty in deeds of reformation,
Uprooting evil legislation;
Eager for measures strict and sure,
Lest by the tricks of men impure
Justice should fall and crime endure.
These are in brief the traits we find
Implanted in his noble mind.
Let us then work with might and zeal,
Drawn on by love of public weal;
Each citizen this chance embrace,
Nor rest till Tilden win the race.

Thrash's Consumption Cure and Lung Restorer.

CENTRAL RAILROAD & BANK'G CO., OF GEORGIA,
ATLANTA, GA., June 4th, 1876.

Messrs. J. T. Thrash & Co., Griffin, Ga.:

GENTS—Please send me (as before) one largest size bottle of your "*Consumption Cure and Lung Restorer*"—true to name. It is the only remedy now extant for consumption and diseased throat and lungs. Other remedies, so numerously recommended, are but temporary palliatives, that do any good but for a short time, whilst your *Consumption Cure and Lung Restorer* gives relief at once and will permanently cure. My experience with remedies for the relief of the throat and lungs probably exceeds that of but very few persons, physicians or otherwise. I have been very near the point of dissolution of soul from its afflicted tenement; and have used every remedy ever heard of; the effect appeared only to procrastinate the sufferings of my mortal existence. Seeing Dr. Lovic Pierce's certificate of your medicine, and being well acquainted with the reverend doctor for nearly forty years, and consequently knew well his afflictions, concluded that your remedy might do me good, at least I had never used it and as I had used every other remedy known or heard of, concluded at once to give it a trial. I sent to you for a bottle, as you are aware, and after using it, I purchased more from Messrs Hunt, Rankin & Lamar, of this city. Before the first was exhausted I was fully convinced of its good effects; and after or about the time of the use of the last two, I could speak easily, and could *sing*; a thing I could not have done for three years or longer; and have been able to lie down comfortably and sleep soundly, a comfort that I had not enjoyed for a long time. I have been using the remedy about twenty days, and unhesitatingly certify that it is a *cure for consumption* and all affections of the throat. My lungs commenced exhibiting signs of disease in March, 1858, the result of *measles*, a cough ensued and continued to grow worse. April, 1874, I was so feeble that I could not attend to business of any sort, and was forced to give up and come to Atlanta that I might be near my good old mother to breathe out my last on earth: the *never-tiring* attention of *that mother* and your *Consumption Cure and Lung Restorer* has saved me and I now feel as if my life might be spared me several years longer, Indian remedies, German remedies, and French remedies to the contrary. Respectfully,

JOHN H. MEAD.

Centennial Exhibition

PHILADELPHIA, PA.

THIS GREAT INTERNATIONAL EXHIBITION, DESIGNED to COMMEMORATE the ONE HUNDRETH ANNIVERSARY OF AMERICAN INDEPENDENCE, WILL OPEN MAY 10th AND CLOSE NOVEMBER 10th, 1876. All the Nations of the world and all the States and Territories of the Union will participate, bringing together the most comprehensive collection of art treasures, mechanical inventions, scientific discoveries, manufacturing achievements, mineral specimens, and agricultural products ever exhibited. The grounds devoted to the Exhibition are situated on the line of the Pennsylvania Railroad and embrace four hundred and fifty acres of Fairmount Park, all highly improved and ornamented, on which are erected the largest buildings ever constructed—five of these covering an area of fifty acres and costing $5,000,000. The total number of buildings erected for the purpose of the Exhibition is over one hundred.

The Pennsylvania Railroad

THE GREAT TRUNK LINE

AND FAST

Mail Route of the United States,

will be most direct, convenient and economical way of reaching Philadelphia and this great Exhibition from all sections of the country. Its trains to and from Philadelphia will pass through a GRAND CENTENNIAL DEPOT, which the Company have erected at the Main Entrance to the Exhibition Grounds for the accommodation of passengers who wish to stop at or start from the numerous large hotels contiguous to this station and the Exhibition—a convenience of the greatest value to visitors, and afforded exclusively by the Pennsylvania Railroad, which is THE ONLY LINE RUNNING DIRECT TO THE CENTENNIAL BUILDINGS. Excursion trains will also stop at the Encampment of the Patrons of Husbandry, at Elm Station, on this road.

THE PENNSYLVANIA RAILROAD IS THE GRANDEST RAILWAY ORGANIZATION IN THE WORLD. IT CONTROLS SEVEN THOUSAND MILES OF ROADWAY, FORMING CONTINUOUS LINES TO PHILADELPHIA, NEW YORK, BALTIMORE, AND WASHINGTON, OVER WHICH LUXURIOUS DAY AND NIGHT CARS ARE RUN FROM CHICAGO, ST. LOUIS, LOUISVILLE, CINCINNATI, INDIANAPOLIS, COLUMBUS, TOLEDO, CLEVELAND, AND ERIE, WITHOUT CHANGE.

Its main line is laid with double and third tracks of heavy steel rails, upon a deep bed of broken stone ballast, and its bridges are all of iron or stone. Its passenger trains are equipped with every known improvement for comfort and safety, and are run at faster speed for greater distances than the trains of any line on the continent. The Company has largely increased its equipment for Centennial travel, and will be prepared to build in its own shops locomotives and passenger cars at short notice sufficient to fully accommodate any extra demand. The unequalled resources at the command of the Company guarantee the most perfect accommodation for all its patrons during the Centennial Exhibition.

Three Miles of Railroad Transportat'n

Lands Unsurpassed for Fruits and Farming.

OFFICE SOUTH FLORIDA LAND AGENCY,
FORT MASON, Orange County Florida.

THE undersigned have entered into a business arrangement for the purpose of locating settlers on the public lands (either the United States or State) in this and adjoining counties.

Located in the most delightful portions of Orange county, in a section of territory conceded by all to be the best adapted to the culture of the orange and kindred fruits, and thoroughly acquainted with all the lands in this vicinity, we are better able to give information concerning the lands still vacant than any others engaged in the land business in this county.

The railroad now in course of construction connecting the St. John's river at Lake George with Lakes Harris, Eustis, Griffin, Dora and the other head water lakes of the Oclawaha river, will furnish all the surrounding lands with ample transportation facilities and place settlers within easy distance of the Northern and Eastern markets.

The Climatic Advantages

of this section of territory are so well known as scarcely to need recapitulation. Vegetables and tropical fruits can be grown throughout the year without danger from cold. The severest frosts of this lake region do not injure vegetation, as was proven during the past winter, when the frosts killed early vegetables at considerable distances south of us and left this region untouched—not a blade of grass being injured.

Homesteads near the Railroad.

We are now prepared to locate settlers on the public lands in close proximity to the railroad. One of the undersigned (Mr JOHN S. BANKS), has just completed a thorough survey of a large tract of United States lands, situated at from three to six miles distance from the railroad. These lands are not only admirably adapted to the culture of oranges, but are also excellent for farming purposes, and can be easily brought into cultivation, the old settlers in the vicinity raising an abundant supply of corn, cotton, sugar, etc., upon them.

Get a Homestead Now.

Parties who propose settling in Florida will find it greatly to their advantage to obtain to homesteads during the summer months, and thus avoid the rush of the fall months. Those desiring locate near the railroad can obtain

One Hundred and Sixty Acres Free

if their entry is made before the completion of the road. After its completion, which will be some time this coming fall, they will not be permitted to enter more than eighty acres. Persons locating during this summer can also get their lands in readiness for a crop of early vegetables next winter, and thus be enabled to realize a profit from the lands immediately. We are now

Prepared to Locate Homesteads,

singly or in colonies, at moderate rates, and in every case we guarantee complete satisfaction. No lands will be located by us until one of us have thoroughly surveyed them, and in all cases our patrons shall be given the best tracts of which we have any knowledge, without favoritism or partiality being shown to any one.

State Lands.

We are also prepared to locate, survey and purchase any desired quantity of State lands, and will perform this work either for a specified price in money or for an agreed upon per centum of land. We now have some choice pieces of State land marked out on our maps, which have been surveyed by us, and which are among the best lands of this State.

Further Details

can be obtained by addressing (with stamp enclosed for reply) the undersigned. Prompt attention given to all letters. Address

BANKS & ST. CLAIR-ABRAMS,
Fort Mason, Orange county, Florida.

To My Friends in Georgia, Alabama and South Carolina.

In response to many letters received by me, I have entered into a business arrangement with Mr JOHN S. BANKS for the purpose of locating settlers on the public lands of this and adjoining counties. Mr. BANKS is a practical surveyor of many years' experience, and possess a thorough knowledge of the public lands, having been United States Register of Public Lands in this State. We have explored and surveyed a considerable tract of these lands, and we are now prepared to locate settlers on

Choice Homesteads.

Many persons have written me expressing a desire to move to this State during the present year. These I would advise to OBTAIN THEIR HOMESTEADS NOW. In the fall months the rush of Northern settlers is so great that it is difficult to obtain choice homesteads; whereas, at present the travel is light, and one can select a place with greater ease. In addition, the large tract of homestead lands contiguous to the railroad, recently surveyed and opened up for settlement by Mr. BANKS, if not entered this summer, will inevitably be taken up by the first influx of Northern travelers next fall. As my desire (without prejudice to Northern settlers) is to locate the numerous citizens of the States above named on choice homesteads, while able to do so, I urge them to make the selections at once, and thus secure valuable and eligible homes in this State.

Important to Parents and Guardians.

MOUNT DE CHANTAL

Academy of the Visitation,

NEAR WHEELING, WEST VIRGINIA.

PARENTS in quest of a first-class school for their daughters, will do well to investigate the claims of this celebrated Academy. For thoroughness in every department of female education, Mt. de Chantal ranks pre-eminently high. Great attention is given to perfect the pupils in writing and speaking French with fluency. For those sufficiently advanced, it is the language of their recreation hours. The purity of accent and correctness of pronunciation acquired in this Institution have been a subject of surprise to the native Parisian. The renown for the superiority in music is so wide spread as to have made this Academy almost a national one. One feature, in particular, that should recommend Mt. de Chantal to the sensible parent, is the influence exercised to form the pupils to views and habits of economy, and to render them really practical and useful women of society in after years. Simplicity in dress is enforced by rule.

These facts, united to the exceedingly moderate rates of board and tuition (200 per annum,) will we trust, secure to this school as large and desirable a patronage in the future as it has enjoyed in the past.

For further particulars apply for prospectus to the Directress of Mount de Chantal Academy of the Visitation, near Wheeling, West Virginia.

OUR TRADE PAPER.

Annual Review of the Business of Atlanta.

On or about September 20th, we shall issue our usual annual review of the business of Atlanta. To our business men and people generally, this is the most important issue of the paper during the year, as it makes an exhibit of our mercantile and material progress, and also of the great advantages of Atlanta either as a place of business or residence. The paper is eagerly sought at home and abroad, and consequently an immense edition is published.

The paper, for all these reasons, is one which possesses peculiar advantages for advertisers and every business man should not fail to advertise in it, especially as it appears just before the opening of the great fall trade.

As our merchants and citizens will desire to send copies to friends and business patrons, we shall print many thousand extras, and will furnish them at low rates, and in single wrappers if desired.

Send in your advertisements at once, or notify the office, and an agent will call.

American House, Boston.

This hotel has been so long and so well kept, that like good wine it "needs no bush," and yet we can't help speaking a word in its favor. It has been established over a quarter of a century, and has become renowned all over Europe and America for its unexceptionable qualities as a first-class hotel, where both comfort and economy are combined. These are facts worth knowing to those who expect to visit Boston this season. Prices have recently been reduced to $3 00, $3 50 and $4 00 per day.

Of the great hotels in New York, there is none superior to the Grand Hotel, of Broadway and 31st street. This excellent house is conducted on the European plan—furnished in the best of style— and, as its name implies, is a grand and palatial house While everythin is first-class and of the very best, the expense of living at the Grand Hotel is no more than at other first-class houses.

Si Disturbs a Speaker.

"Yer warn't out to de 'publican meetin' las' night?" asked old Si as he brought in the morning exchanges.

"No; did they have a good meeting, Si?"

"Jess tolerbul, sah. Dey wuz gwine 'long berry slick tell I kinder 'sturbed de purceedin's!"

"How was that?"

"Well, dere wuz 'bout twenty ob dem Survanner 'publicans dar what run 'way frum de yaller fever!"

"Yes; what of that?"

"Dey wuz spoutin' 'round dar 'bout de leckshun an' how dey wus gwine ter run dis gub'ment fur de nex' fo' yeah spite ob de rebels, de debbil an' all his angels!"

"But how did you disturb the meetin'?"

"I said ter der boss refergee: 'Whar is you cum frum?' He say: 'From Suvanner.' I say: 'What yer cum heah fur?' He say: 'Ter skapel frum de yaller feber.' Den I say: 'Lookee heah, nigger, ef yer run frum de yaller feber dis way, what is you all gwine ter do when de dimmycrat feber cums long hyar in de nex' few weeks? Whar will yer take de wings ob de buzzard an' fly 'way to den, wid yer leetle leau kyarpitbags?'"

"Well?"

"Dat feller jess sot down like a cotton bale fell on to him an' de cherman say 'Dis meetin' am jerned fur de present!' Den I skeeted out ob dar, fas' enuff?"

Amos' Idea of Fashion.

Amos went to buy some goods to make his wife a dress, and said to the clerk:

"Gimme nine yards ob dat dar piece ob kallker—dis sort ob red piece."

"Nine yards? Why, that wont make a dress now-a-days!" replied the enterprising clerk.

"Well, boss, dat may be de truf fur de white fokes, but I happens ter kno' who is gwine to war dat dress."

"Just as you say, old man!"

"Yas, sah, dat's what I hab larned dem gals ob mine ter say, too. Dat's de 'mount ole marster used to measure out to each nigger gal an' I follers his plan, 'kase when dere's mo' dan nine yards in a dress de wimmen hab got ter use one han' ter keep de onnessersary part out dere way—an' I don't 'low no one-handed work 'bout my house, no sah!"

And he went on with the nine yards.

Why They Don't Rally.

A gentleman from the north struck into a conversation with a negro man at the depot yesterday.

"How does the republican party flourish down here?"

"Well, sah, she's mighty weak an' sickly. fur a fack Boss."

"I'm sorry for that," said the stranger

"Yes, sah; de 'publicans has done bin on de down-grade sebaral years an' de skedjule am kinder gittin fas'er and fas'er de furder dat dey go!"

"Why don't you colored men rally and save it, my friend?"

"Good gelly, boss, de cullurd popylashun hab got ter rally an' sabe dereselves. When de 'publican train hab got no pervishions on board an' de dimmycrats hez, plenty of bacon ter eat an' is allus greasin' de 'publican track wid de meat-skins, de niggers takes mighty little stock in dat train—dat's so!"

The northern gentleman saw the application.

WIDE-AWAKE DEMOCRACY.

Interesting Meeting Next Week of the Young Democracy.

The members of the Young Men's Democratic club are not idle but are preparing for effective campaigning. In a very few days they will take action looking to the bringing out of the full vote of the city and county at the state national elections.

COLORED CLUBS.

A quiet canvass among the colored people of the city has developed the fact that a large number of them are anxious to allign themselves on the side of the democracy. They are ready to freely and wholly devote their influence to the success of the only party from which they can hope to gain substantial benefits. The club will be called to take such action as may be necessary to secure these colored men the proper means and support to carry out their desire. It is believed that a start only is needed to insure large gains to the party from the colored people.

DISTINGUISHED SPEAKERS

will address the club and the people of Atlanta during the next two weeks. President Banks has been actively engaged in securing the services of our ablest orators for these occasions.

Senator Norwood will address the club at length upon one of these occasions, and the public will be treated to a masterly effort.

Congressman Hartridge is also mentioned as one of the orators before the club at an early day. Mr Hartridge is one of Georgia's most eloquent sons, and an address from him will be an enjoyable occasion in Atlanta.

Other prominent democrats are being consulted with the same view and there will be no lack of enthusiasm among the Tilden hosts from this on to the great election day.

Democratic Executive Committee Meeting.

The members of the democratic executive committee are requested to meet at the city hall next Wednesday morning at 9 o'clock. A full attendance is urgently requested, as business of importance will be attended to.

HOKE SMITH.

THE BRINKLEY CASE.

THE PRISONER NOT TO BE HUNG WITHOUT ANOTHER STRUGGLE.

What the Attorneys For the Defendant Think About the Case.

The conviction again of Stephen B. Brinkley, by a jury in Coweta superior court, has acquired some interest among our public, and curiosity is now aroused to know when that sentence will be allowed to go into effect. The case has become famous all over the state, and the recent trial was closely watched by curious public. The counsel who defended the unfortunate man have had a rough time. The fearful crime with which he is charged, and the circumstances of peculiar atrocity surrounding it, rendered it a desperate case from the very beginning The history of the prisoner since the crime is an eventful one.

On the 14th of May 1874, Stephen B. Brinkley

MURDERED HIS WIFE.

The crime was committed in the town of Newnan, and the details although frequently published, have never ceased to be horrible. The unhappy man cut his wife to death with a knife, and the blood of the dying woman fell upon her children as they crowded around her in their terror.

The husband was tried for his crime at the ensuing term of the superior court of Coweta county, found guilty and sentenced to be hung. A motion for a new trial was made by his counsel and over-ruled. The case was taken to the supreme court, who affirmed the judgment of the court below. His indefatigable attorneys next sued out a writ of lunacy, which was tried before a jury, who failed to agree. Governor Smith however respited him until this plea of lunacy could be further inquired into, and appointed a board of three physicians, Doctors Banks, Long of LaGrange, and Logan, to investigate his mental condition. They reported that they did not see sufficient evidence of his insanity. A motion was then made for a new trial upon extraordinary grounds, argued by General Gartrell, and granted by Judge Buchanan. This was at the last March term. The new trial has just been concluded. The case was stubbornly fought on both sides, and the jury have again returned

THE PRISONER GUILTY OF MURDER.

A reporter of the CONSTITUTION yesterday called upon General Gartrell, and obtained from him the following interesting facts relative to his side of the case.

The General attributes the verdict mainly to the great prejudice existing against the accused in his community on account of the enormity of the act.

The defense rested their case upon the theory that the prisoner was laboring under a delusion at the time of the crime They admitted that he had reason amply sufficient to distinguish between right and wrong generally, but that at the moment of the murder, he was the victim of delusion so overwhelmning as to relieve him from penal responsibility. The idea that possessed the unhappy man was that his wife was unfaithful to him. He was devotedly attached to her and as devotedly attached to his children, and under the influence of a delirium he could not control, and he killed her. In support of their position the defense relieved upon the case of Montgomery Roberts vs. the state 3d Georgia reports, page 310. In this case the supreme court fully sustains the delusive theory, as is seen by the following note:

"If a man has reason sufficient to distinguish between right and wrong in relation to a particular act about to be committed, he is criminally responsible. An exception to this rule, however, is where a man has reason sufficient to distinguish between right and wrong, as to a particular act about to be committed yet in consequence of some delusion, the will is over-mastered, and there is no criminal intent, provided that the act itsel is connected with the peculiar delusion under which the prisoner is laboring."

General Gartrell and P. S. Smith, Brinkley's attorneys, requested Judge Buchanan to give this case in charge to the jury. This he declined to do, and the jury found the prisoner guilty.

The fight to save Brinkley's life is not over by a great deal.

A motion for a new trial has been made, and will be heard by Judge Buchanan in vacation, on the third Monday in October. The motion is based upon the refusal of the court to give the case in the 3d Georgia in charge to the jury, and upon divers other grounds unnecessary to mention here. Brinkley's lawyers are very confident that they will be able to make a sufficient showing to induce his honor to grant the prisoner another trial, but should he refuse to do so, the case will again be carried to the supreme court. It is safe therefore to predict that Brinkley is in no danger of being hung for many months to come. Should a new trial be obtained it is probable that the case will have to be removed to another county, as it will be almost impossible to obtain an impartial jury in Coweta county.

Grand Hop at Bullock's Barn.

One of the most enjoyable affairs it has ever been our good fortune to attend, took place at the above named place last evening. At an early hour in the afternoon the young men commenced to congregate at the various livery stables, where the teams were in readiness to convey them to the farm.

At 5 o'clock not a vehicle could be gotten for love or money, as everything from a first-class carriage to the late lamented ox cart was called in requisition.

The roads leading to the grounds were crowded with buggies, carriages and wagons loaded with the most precious freight that Marietta can produce.

On arriving at the grounds they presented the most beautiful appearance, the magnificent barn was brilliantly illuminated with lamps of all descriptions, but the feature of the occasion was the beautiful lawn which was illuminated with several large head lights placed in such positions as to throw a soft and mellow light through every part of the grove much resembling a soft moonlight. The dancing commenced at 7 p m. and lasted until 3 a m when the party commenced to return. The young ladies were never more attractive or lovelier, and as full dress was indispensible the young men were gotten up regardless of expense. One young lady danced everything on her card and two more besides, and had to talk all the way home. Mr and Mrs. E H Paine did everything for the comfort of those who attended, and to them must be given the credit for the success of the entertainment. They have been rightly named the best of entertainers.

There were about two hundred present, not including children under six months of age who were numerous. Several young men seemed to be unanimously of the opinion that there was too much light on the subject as it prevented them from promenading as much as they would have liked. There was only one thing that seemed to throw a damper on the ceremony, and that was the absent ones. Many sighs were heard and many regrets were expressed at the absence of a certain young man from Atlanta, who was here several days ago He is said to be very handsome and dances to perfection. May his shadow never grow less

We had the pleasure of being one of a large party which assembled in Marietta. Friday night to attend an extensive *bal masque* which was given by a number of ladies and gentlemen who are spending the summer in our pleasant little sister city. The number of gay maskers was large and among the throng were representatives of almost every city in the state. CHILD ABANDONMENT.

A Negro Infant Found in an Out-House.

Yesterday another case of heartless abandonment of a child was brought to light in this city. We have had several of these kinds of cases to report recently, and this method of ridding themselves of their unloved offspring, seems to be growing in favor among our unprincipled women.

This baby was found yesterday morning at an early hour, in an old out-house near the corner of Spring and Church streets, in the vicinity of what is known as the Walton Spring branch.

A negro woman, residing in the neighborhood, had occasion to go into the house, and was much astonished upon entering to

DISCOVER THE INFANT.

The child must have been placed there between four o'clock and daylight, as at the former hour, Lieutenant Murphy, of the police, passed the place and noticed nothing unusual. The child is a healthy, stout boy, only a few days old at the utmost It was wrapped up simply in an old piece of soiled calico It is a negro, but so light in color as to be almost white. When found it was crying lustily, and evidently suffering considerably from cold. The new arrival created a considerable commotion among the colored population of the neighborhood and the police were soon making efforts to find the mother So far, they have been entirely unsuccessful, having failed to obtain the slightest clue. The babe is doing well. A respectable negro family near by have adopted the little stranger, and now say they wont give him up even if the mother should come after him.

Eminent Artists.

At the concert to-night for the benefit of the stricken people of Savannah, it should not be forgotten that Professor and Mrs Vonder Hoya Schultze will appear. They are true artists in music and their fame is attested by the most ample authorities of two continents. They will be attractions worthy of the occasion and should be heard by every lover of fine art in music. Our citizens will find in their performances a rare entertainment, and we bespeak for them a most cordial reception.

ADAIR'S OPINION.

WHAT COL. GEO. ADAIR THINKS OF THE ATLANTA COTTON FACTORY.

A Common Sense Talk—How the Factory is Being Built—A Close Executive Committee—Real Estate Does Not Pay in Atlanta—An Argument for Factories etc.

A CONSTITUTION reporter stepped into Col Adair's office on yesterday and found that gentleman busy explaining to a crowd that he "had hit the bull's eye plump" in his late political speech at the Griffin convention.

As soon as his enthusiasm had subsided, and the political fever had flickered out of his blood, we asked him if he could give us any new ideas on the cotton factory.

"Of course I can" he replied. "I am one of the executive committee and I have given more time to it than to anything else for the past few months."

NEAT BUT NOT GAUDY.

Now, we want a little more stock subscribed to the factory. Several who subscribed have not paid, and their places must be filled. I will give you a few reasons why those who we now call upon to subscribe should do so, I will not talk of the general good effect that the building of the factory will have on the city, but I will show that it must be a good investment.

In the first place we have here the best factory building in the south. When we went to build it we sent north and obtained the services of Mr J S Davis a, man who had a national fame for building factories, who had constructed several large factories and know precisely what was needed. He has been unencumbered and has a plain substantial building, "neat but not gaudy," that is as near perfection as brick and mortar can make it. There is not a single dollar wasted on useless ornamentation, not a dollar stinted in making it strong, substantial and reliable. So much for the building.

In the second place, our machinery is the very best. Mr. Cogin, confessedly one of the finest practical mill superintendents in the world went with Mr. Kimball himself and bought it after the most careful scrutiny of every piece. We have in the way of machinery

EVERY POSSIBLE IMPROVEMENT UP TO THE DAY BEFORE

we bought. We took advantage of every new invention, and every new improvement, and our machinery from first to last is just as perfect as the science and skill of the world, combined with the experience of ages, can make it.

In the third place, the affairs of the factory have had, from first to last, the very best management that Atlanta can give it. Mr Kimball is the executive man, and a matchless one he is. Then there is the executive committee, Messrs. English, Murphy, and myself. Murphy and English are two of our best business men—cool, clear-headed and cautious—and I am not a reckless man myself. Well, we three men have, day after day, examined personally, every step that was made. We have scrutinized every bill, even for 5 cents; we have kept up with the banks, and in short, have given the factory's affairs the same honest, conscientious attention that we give to our own private business. We are ready, separately, or as a committee, to testify that the utmost prudence, sagacity, and economy has prevailed in every department of the work, and that

NOT A SINGLE DOLLAR OR HALF DOLLAR

has been wasted or ill-spent, or misappropriated. Back of our committee is the board of directors, composed of the best practical, common-sense men in the city, who exercise a close and watchful supervision over the committee.

In the three important elements then of building, machinery and management, our factory is unassailable, and stands on high ground. If any other factory in the south makes money, it will make money. But we know that every factory in the state of Georgia is making money, and making it largely. Then there is no sort of doubt that our factory will prove a good investment and return the stockholders a direct as well as indirect dividend.

A STRIKING PROPOSITION.

"Do you know" continued Col. Adair," that real estate is now unremunerative in this city. Do you know that real estate does not pay over 5 per cent in Atlanta. and much of it not so high a per cent. Of course there are localities where it pays more, such as, Capt Kidd's corner, and other most central business points. But the average real estate is now unremunerative. I had a long talk with Gov. Brown the other day. He has a number of vacant lots that he wanted to improve. He is a large capitalist and is content with small interest on his money. But after looking into the question of real estate he found that it would not pay to build, and prefers to let his lots lay idle, and pay taxes on them, while he puts his money elsewhere.

Real estate has heretofore been the current into which all surplus capital in Atlanta found its way. It was a safe, rising, and good-paying investment. Now however it is not, and money must seek other employment. There is no temptation to put it into merchandise. The business of buying and selling is already overdone. There is no inducement to put it into brokerage, for the banks now have much more money than they can lend on good security They have thousands of idle dollars, simply waiting for good borrowers to call it. When money cannot be profitably employed in first, REAL ESTATE or second MERCANTILE OPERATIONS or third BROKERAGE, it *must* go into MANUFACTURING. This is in my opinion, the direction which Atlanta capital will take hereafter. If this factory is finished, and successfully operated one year, it will be

THE MOTHER OF A DOZEN FACTORIES,

all of which will come without solicitation in the next two or three years. There is plenty of money looking for investment in manufacturing now. All it wants is an experiment to justify a venture. Our people are familiar with flour mills. So, the other day when the Kennesaw mills were for sale, a merchant here desired to get up a company to buy it and run it. He raised $60,000 in two days, and never applied to a single man who declined to invest. So it will be with cotton factories when we have become used to them.

ATLANTA A PERFECT CITY.

The establishment of half a dozen cotton factories will make Atlanta a perfect city. What do we need now but factories? We have enough stores, more than enough. We have a surplus of houses. We have enough merchants. We have exceptionally fine railroad facilities. We have public schools. We have water-works. We have churches, public buildings, charites, etc. We have sufficient hotels. We have everything but factories. And these we must have, and will have. Indeed, the city can only develop in that direction. It is furnished, for the present, in all other directions. Hence, it is that we feel so much interest in the Atlanta cotton factory, and are so solicitous of its early completion.

Just here a gentleman came in to consult Colonel Adair about how to borrow money on Georgia bonds in New York, and we left, hearing the Colonel remark in his vigorous way as we went out the door, that "you couldn't borrow $10 in New York with ten counties in Georgia as security."

A FOX CHASE.

Reynard Runs a Race in the City's Streets.

Yesterday afternoon that portion of the city in which the county jail is the most conspicuous edifice was thrown into wild excitement by the appearance of

A LIVELY FOX,

which capered around in the public view until an amount of interest was developed to make it worth while for him to find more secluded quarters.

This fox has been under suspicion for some time among the colored people in that locality. Divers and sundry fowls have recently disappeared from the yards of residents in that neighborhood and the presumption of guilt in the matter of these depredations has been about equally shared between his foxship and sundry colored fellows of uncertain character who congregate in the vicinity.

THE AUDACIOUS FELLOW

yesterday showed himself to public gaze, and impudently essayed a promenade in the open streets. His appearance was greeted with the most abundant enthusiasm, but his march was not that of a conqueror. All the big and little white and black people in the neighborhood turned out to give him a reception. He was

CHASED BY ALL THE DOGS

in that end of town, urged on by as motley and excited a crowd of men and boys, armed with sticks and stones, as one poor fox is able to stand against.

Reynard took refuge under a store at the corner of Fair street, opposite the southeast corner of Peaseville, and for an hour baffled all attempt of the crowd to punch him out He was eventually started and amid a vociferous shout the dogs got hold of him, and in a few seconds he was too dead to skin. But the sport that the crowd had was equal to a week's trip into the country.

Relief for Savannah.

ATLANTA, September 15, 1876.

Sam'l Inman, Esq., Chairman Relief Committee—Dear Sir:—With the desire of adding to the fund for the relief of the sick sufferers of Savannah, we propose to have an auction sale on the 19th inst., on the following plan and conditions:

We will solicit from our citizens donations in the shape of merchandize, furniture and all other articles of value, to be sold on that day at auction *free of commission*, also any other property not *donated* will be sold at this sale for the usual commission and the gross amount of sales of contributions with the commission on other sales to be turned over to yourself as chairman of the relief committee; and as such we respectfully solicit your approval. And aid (by a committee would perhaps be advisable) in this effort to alleviate the sufferings of our afflicted sister city. Very respectfully,

JOYNER & ELLIS.

ATLANTA, GA., Sept. 15, 1876.

Messrs. Joyner & Ellis: Dear Sirs—Your favor of this date has been received, and I have consulted with a majority of the committee in regard to your plan and they approve it.

Almost every family has some article or articles which may be spared to be sold when the proceeds are to go to those in such want as are the yellow fever sufferers in Savannah.

I appoint a committee of citizens consisting of Messrs S A Echols, B B Crew and E. Van Goidtsnoven to co-operate with you in soliciting and receiving the goods to be thus sold.

Appreciating the generous motives prompting your move, we wish you success. Respectfully,

S. M. INMAN,

Chairman Savannah Relief Committee.

TO THE PUBLIC.

The undersigned have been appointed by Mr S M Inman, chairman of the Savannah Relief committee, to co-operate as a sub-committee with Messrs Joyner & Ellis, in soliciting donations to their auction on Tuesday next for the benefit of the Savannah sufferers.

We shall not weary the public with personal solicitations, as we believe a statement of the plan only will be necessary to secure contributions. These may be merchandise from stores, furniture from residences, manufactured articles of any kind, and in fact anything whatever of value. The plan affords an opportunity for every citizen to contribute something, and scarcity of ready cash need not now prevent the rendering of assistance to the unfortunate sufferers of our sister city.

We invoke the co-operation of all our fellow citizens—ladies as well as gentlemen. Donations will be received on Saturday, Monday and Tuesday morning. One or more of the committee will be at the auction house to co-operate with Joyner & Ellis in receiving and arranging goods. Those having articles to donate can have them called for by leaving their address with either of the committee, or with Messrs. Joyner & Ellis.
